Roll no.: 19BCE252
Course code and name: 2CS405 (Web Technology)

Practical 9:

Aim : Design a shopping website using CSS that provides information about various products to the visitor. A visitor can register to the shopping website if he wishes to purchase some item(s) now or in future. The registration form should collect necessary information of a visitor in order to deliver the product if order placed. Moreover, design a web page to place orders by the registered user. Validate all the fields of the registration form and order form

Conclusion:-

From executing this practical 9 of html, we have learnt about all the technologies of WT in detail and also many deep concepts of css.
